

INFINITE SAFETY

Knuffi® Flex

New

New product

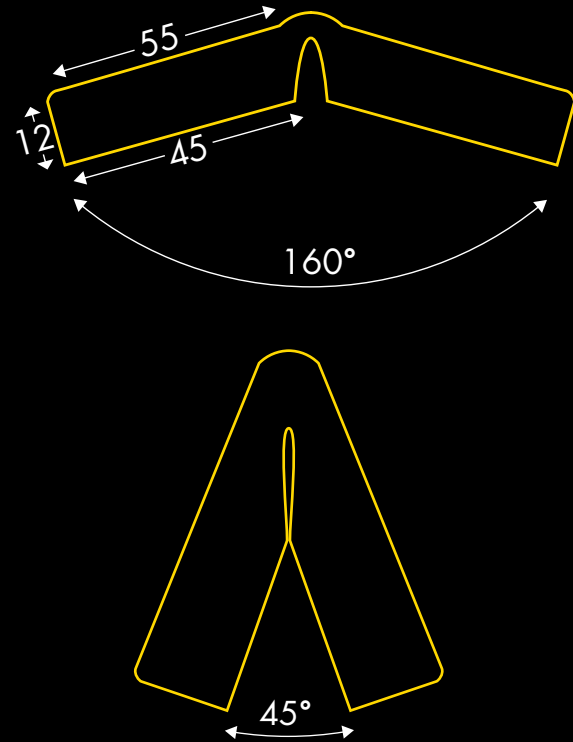

Made in Germany

Knuffi® Flex: in case it is not right.

Whether in warehouses, car parks or production halls: Knuffi Flex is the right product for securing not right-angled edges and protecting man and machine against damages. The innovative corner protection guard is highly flexible and adapts itself to angular sizes between 45° and 160° . As a result it can be attached to particularly flat as well as sharp edges. Knuffi Flex is made of our tried and tested polyurethane foam that absorbs even the heaviest of impacts due to its elasticity. That way employees, buildings and inventory are protected reliably.

New flexibility

All dimensions in mm

New signal colour for maximum attention.

Our new colour combination visibly provides greater protection. In addition to the standard colour yellow-black, Knuffi Flex is also available in red-neon. This new variant draws even more attention to potential danger spots. The guard is available in the standard length of 1 m and is equipped with a sturdy core. It is wrapped with a PU-film to prevent colour abrasion even under severe conditions. The high durability and versatility of the material and the strong signal effect of its colours make Knuffi Flex the ideal solution for an effective corner protection.
